Carver's second objection dealt with the fact that a separate bank account should be set up for payment of the extension expenses. In both letters, Carver asked that work be stopped on the project but his motion to do so died for lack of a second. "I have money on hand now and rather than siton it, I felt that this project would benefit a good portion of the community," Frisbie explained.

The project involves extension of a water line into approximately three miles of the annexed area. "In many cases, insurance rates will go down with the installation of fire plugs and people will be able to take advantage of the city's water service," Frisbie emphasized.

Practical Means Offered To Stop Water Pollution

CLEAN WATER

Federal Water Pollution Control Administration of the U.S. Department of the Interior says that there are ways in which you can help to prevent or control water pollution. The following is their list of

some of the ways. Some ways are easy: At the very least, speak out for clean water. Let it be known that you are for water pollution control. That alone will help.

Don't litter beaches, parks or waterways. For that matter, don't litter streets and roadsides. Sooner or later, such litter is likely to wind up in the nearest lake or stream. That's one form of water pollution prevention.

Some may cost you money? ballot for a waste treatment plant, vote for it. Use your "X" to cross out dirty water, not to cross out clean water.

Some involve time and effort: Find out about water pollution in your area. Find out about your state and local water pollution control programs. If they are good programs, support them, If they are weak programs. insist that they be Find out strengthened. whether there is a citizens' organization in your community working on water pollution. If so, do all you can to work with them. Either on your own or in collaboration with others, find out about DARDS in your state. The establishment of water quality

navigable waters provided for by the Water Quality Act of 1965. On a national scale, this is a new approach to the prevention and control of pollution in this country. See to it that the standards are complied with.

"Cleaning up America's polluted waters is a job for government at all levels and for industry," says the Federal Water Pollution Control Administration in a leaflet called "What you cando about Water Pollution". "But both government and industry need citizen support and encouragement. Often, informed public pressure is

the only way to get action."
The leaflet goes on to state, There is no getting around the fact that water pollution control costs money. It may mean larger taxes. It may mean increased production cost for many industries. In If there is a bond issue on the one way or another, these costs must be borne by the taxpayer and the consumer our whole society. But these costs are small compared to the costs of running

out of clean water." The leaflet is for sale by the Superintendent of Documents for the price of fifteen cents from the U.S. Government Printing Office, Washington,

This leaflet offers some practical suggestions for the builder, the farmer, the industrialist, the boat owner. Here is a brief summary of their suggestions.

For many years, the citizens of Hancock County have been accused of being apathetic when it comes to participation in local government. Used as a frame of reference is the fact that very few people show up at the meetings of elected and appointed officials.

Having attended an endless string of meetings, we are prepared to defend apathy at least in the name of sanity and proper rest. Consider the possibilities if a local resident decides to attend every meeting open to the public:

BOARD OF SUPERVISORS - scheduled to meet the first Monday of every month at 9 a.m. but often recessed until that afternoon at which time they recess until the following Monday. Often it gets to the point when it is the recessed meeting of the special meeting called during the adjournment of the recessed meeting of the first regular meeting of the month. In other words, they call a meeting to decide when to hold the next meeting.

BAY ST. LOUIS COMMISSION COUNCIL first Monday at 10 a.m. and third Monday at 7 p,m. The night meeting was called to allow those people who work on Monday morning (which is just about everyone except those who regularly attend the Supervisors' meeting) to see what's going on in city government. It was a foxy move, however, because no one survives the first week of meetings and the second city meeting is usually attended by two reporters and a fly named Arthur.

WAVELAND CITY BOARD - This is a little tricky. They meet on the first Tuesday and the third Wednesday. These meetings are great for insomniacs, however, because they usually last well into the night.

In addition to the three main powers-that-be, there are also a number of other meetings open to the public:

Hancock County School Board: first Tuesday (morning) Bay-Waveland Municipal School Board: second Monday (night) Hancock General Hospital Board: third Tuesday (night) Port and Harbor Commission; second Thursday (night) Bay St. Louis Planning and Zoning Commission: second Tuesday (night)

Add this to the fact that an involved citizen is also expected to attend the regular meetings of the various civic organizations such as Rotary, Jaycess, Chamber of Commerce, Junior Auxiliary, Altrusa, Waveland Civic Association, Clermont Harbor Civic Association and the Farm Bureau. And, let us not forget the Masons, the American Legionnaires and the Veterans of Foreign Wars. And the special public meetings and the PTA meetings and the church-affiliated meetings and the business meetings and the garden club meetings and the meetings to form organizations

which will in turn hold more meetings! But, as a brillant statesman once said, "Every cloud must have a silver lining", and there is hope for the An organization called the Hancock County Meeters Association has been formed. They meet on the fourth Sunday of every month at 7 p.m.

Classes started Monday night under the instruction of Dr. Gary Wildman, a member of the Hattiesburg campus faculty. The course of study, which runs three and a half hours every Monday evening, offers lectures, demonstrations and discussions covering all aspects of drug identification and abuse of particular importance to police officers.

According to Dr. Joe Holloway, associate dean of the Gulf Park campus, the university is able to offer this and forthcoming related courses through funding from the Law Enforcement Education Program. Law enforcement personnel not working toward a degree are attending the Drug Identification course on an audit basis, for half tuition,

Tuition costs for Waveland and Bay St. Louis police officers are being paid by the respective cities. Attending from Waveland are Donald McIntyre. Eugene Hughes, Terry Holmes, Walter Turcotte, Ronald Ferrell and Robert Tartavoulle.

Bay St. Louis officers attending are Douglas Williams, Emmitt Ellis, Harold Heine and Melvin Barnes. There are no personnel from the Hancock sheriff's department

Special notification of the course was made to all police chiefs and sheriffs in the coast area by the university, Holloway said, well in advance of the course opening. Other law enforcement related courses at Gulf Park include Political Science, Judicial Process and U.S. Constitutional Law. The university is attempting to schedule similar classes for afternoon hours as well as evening to accommodate law enforcement personnel unable.

birthday, and as usual, something happened at that time. Ever since we can remember, our anniversary has been more than just an individual's natal day but has marked some event of note or importance. There was the early one on which President McKinley was assassinated, followed a couple of years later by a stock market crash and a grinding depression.

So it continued through the years, past the beginnings of World Wars I and II. the Russian revolution, the start of the Big Depression, and countless lesser but sharp crises hammered into life like rivets into a battleship. But the wonder is not that history has become so important a factor, in our life, but that so much of it has happened on or around our birthdays through the years. The latest footnote was the horrible murder of the Jewish athletes in Munich and the almost simultaneous

With a nearing deadline on this year's tree seedling sale, County Forester Michael Hendry today urged local landowners to place their orders without further delay.

Deadline for the sale, which was begun July 1 by the Mississippi Forestry Commission is tentatively set for October 15.

Orders are being filled on a first-come, first serve basis, and already the supply of several species has been exhausted.

The Forester reminded landowners his office will assist in determining the species and amount of seedlings necessary to adequately stock the area he plans to plant.

Order blanks are available at the County Forester's Office located at 211 Necaise

All Southern-pine species are priced at \$6,00 per 1,000 plus 50 cents delivery charge. The first 1.000 bundle is free except for the delivery charge.

Available species other than pine are priced as follows: 250 bundle, \$3.25 plus 15 cents delivery; 500 bundle, \$6.50 plus 25 cents for delivery; and 1,000 bundle, \$13.00 plus 50 cents for delivery. No hard-

wood seedlings are free. Species that are available include: Loblolly, Slash, Longleaf and Shortleaf pines, Bald Cypress, Sycamore, Sweet Gum, Catalpa, Black Locust, Cherry Bark Oak and Cottonwood Cuttings. Limited amounts of Nutall Oak, Arizona Cypress, Virginia Pine. White Pine and Red Cedar are also available. Persons desiring tree seedlings for this winter should place their order immediately," Hendry said

> disrespect to their flag. Why do people do such things? The Arab killers must have been stupid egoists to think that the murder of innocent people would do anything but bring scorn and contempt on them and their cause, just as the Germans under Hitler could not understand that their atrocities won nothing but the condemnation of the world, And the two black athletes threw away the admiration of people everywhere in a display of cheap vanity which disgraced them and built up further antagonism among the people with whom they live.

It is curious that throughout world history so many people have made wrong decisions which have hurt the causes they have sponsored when it has seemed that just plain common sense would have dictated a different course. -The Huns-did-it, and later the-Moors and Napoleon and the British and the Germans all embarked on courses which brought them temporary gain but lasting hatred and condemnation. The Americans have been quilty too in their brutal unfairness to the In-

And to what end? Right here in Mississippi selfish, moneygrubbing white men forced the redmen to give up their lands and their way of life so that they, the whitemen, could profit by something that was not theirs by right. And what was the result? The men who stole those lands are just as dead and forgotten as Napoleon and George III and Genghis Khan, but the pain and unhappiness they caused has placed a black mark against them forever. And the few Arabs who killed innocent men have gained nothing but their own deaths, and the two athletes who scorned their flag and all it has given them have gained nothing but the scorn of their fellowmen.

Well may all of these people have inscribed on their tombs: "Sic semper gloria mundi"!

SOYBEAN INSECTS

When the cotton bollworm or the corn earworm moves into soybean fields, it becomes the soybean podworm -probably the most destructive of all soybean insects. It feeds directly on the marketable product, the seed.

At this time of year it moves from corn or cotton into soybeans. It is most harmful to late varieties on which the pods are immature.

Check closely all soybean fields that are still podding or in the early pod filling stages. Bragg is often the most susceptible to damage since it is one of the latest maturing varieties.

Poisoning for control is recommended when you find one boll-worm per foot of row.

September 6th was our birthday, and as usual, something happened at that time. Ever since we can remember, our anniversary has been more than just anindividual's natal day but has marked some event of note or importance. There was the early one on which President McKinley was assassinated. followed a couple of years later by a stock market crash and a grinding depression.

So it continued through the years, past the beginnings of World Wars I and II, the Russian revolution, the start of the Big Depression, and countless lesser but sharp crises hammered into life like rivets into a battleship. But the wonder is not that history has become so important a factor, in our life, but that so much of it has happened on or around our birthdays through the years. The latest footnote was the horrible murder of the Jewish athletes in Munich and the almost simultaneous

SOYBEAN INSECTS

When the cotton bollworm or the corn earworm moves into soybean fields, it becomes the soybean podworm -probably the most destructive of all soybean insects. It feeds directly on the marketable product, the seed.

At this time of year it moves from corn or cotton into soybeans. It is most harmful to late varieties on which the pods are immature.

Check closely all soybean fields that are still podding or in the early pod filling stages. Bragg is often the most susceptible to damage since it is one of the latest maturing varieties.

Poisoning for control is recommended when you find one boll-worm per foot of row.

Welfare Food Stamp **Program Explained**

With the Food Stamp Program having been in operation for more than a month, Mrs. Lucretia Ply, director of the Hancock County Department of Public Welfare, said she is pleased with its reception here.

"From what I have heard," Mrs. Fly explained, "many people do not understand how the program operates completely." Mrs. Fly said that the following questions and answers should clear up some of the misunderstandings and speed up your applications for food stamps,

Q. Why do we have a Food Stamp Program? A. The Food Stamp Program enables low income households to buy more nutritious food by adding bonus coupons to their food

Q. What are "bonus" coupons?,

A. The difference between the amount people pay in their own money and the total stamps they receive is called free or bonus stamps. That is the contribution the U.S. Department of Agriculture's Food and Nutrition Service makes to the county's war on hunger.

Q. Who pays for the operation of the county program? A. U.S.D.A. provides the

bonus coupons and shares the cost of operations with the State and County.

Q. Who is eligible for food stamps?

A. Your eligibility determined according to uniform national income and resource stands (resources are such things as cash on hand, bank checking and savings accounts, stocks, and

Mrs. Donna Baird of Pass for the cut-glass and silver Christian exhibited an array serving vessels. Centering the

table was a silver tray holding a footed cut-glass fruit and flower arrangement. East end of the table contained the cut glass punch bowl from which Miss Emily Germanis of Sangria was served, and at the West end of the table wine was served from a cut glass decanter. Autumn tones of bronze, orange and yellow were carried out in the dining room arrangements.

In the living room a double Austria wine service dispensed imported dessert wines and books given by the guests were on display. Mrs. Robert Bird of Long Beach assisted with the dessert wine

In accepting the books for the library Mrs. Prindibille said: "Our library has truly grown into the cultural center of Bay St. Louis. We have patrons from all along the coast and our book mobile service reaches those in the county". She added that the library was handicapped by lack of space and said: "We look forward to the day we can make our planned building a reality. We really need a room for civic group meetings, a music department, and an audio-visual facility." She concluded with a cordial invitaiton for everyone to patronize the library.

For a number of years the Pilets have given recognition to the library. Prior to Hurricane Camille their home, Yasume-on-the-Bay, was the setting for larger fire marks. Made of cast iron Sangria and Sherry were silver teas. "Since that home was destroyed and we are now living in a smaller house our guest list has to be limited", explained Mrs. Pilet.

n September 16, 1620 a group of 102 Pilgrims sailed from Plymouth, England to find a new land, a new free world.

On November 21, 1620 their ship, the Mayflower, anchored at what is now known as Provincetown, Mass. - - .

Before anyone went ashore, the Pilgrim leaders persuaded almost everyone aboard to sign an agreement since known as the "Mayflower Compact". It was the 'first' plan for self determining government ever put forth in America.

Those who signed it agreed to set up a government that would make-"equal and just laws" . . . and they promised to obey such laws, whenever the leaders decided upon them,

Mississippi Power Company, and the Edison Electric Institute, principal national association of investor-owned electric utility companies, have announced a \$6-million joint research project leading to the development of "clean

:RABS

The project calls for construction and operation of a pilot plant for studying key steps in solvent refining of coal. The pilot plant is to be built at the site of Southern Electric Generating Company's Ernest C. Gaston Steam Plant at Wilsonville, Ala., some 35 miles southeast of Birmingham. In addition to Mississippi Power Company and SEGCO, Alabama Power Company, Georgia Power Company, Gulf Power Company, and Southern Services, Inc., are affiliates of The Southern Company.

The plant will be designed, constructed, and operated by Catalytic, Inc., Philadelphia, a subsidiary of Air Products and Chemicals, Inc.

Edison Electric Institute (EEI) has pledged \$4 million to the project. The Southern Company's operating affiliates, which are also EEI members, have pledged \$2 million in support. Southern Services will provide the site for the pilot plant, project management, and liaison with related efforts.

The development program is designed so that advancements made through the six-ton-per-day pilot plant in Alabama will complement the development of a 50-ton-perday pilot plant being built near Tacoma, Wash., by The U.S. Department of the Interior's Office of Coal Research.

"This dual industrygovernment approach should result in a faster development than would two independent programs," said Alvin W. Vogtle, Jr., president of The Southern Company. A. J. Watson, Jr., chairman of Mississippi Power Gempany, said, "Our company's par-ticipation in this program is in line with our long-standing commitment to seek new and better methods of protecting re environment.

In this process, "clean coal" is produced by first dissolvin coal under pressure with a small quantity of hydrogen to yield a liquid containing approximately 90 percent of the carbon in the original coal.

Virtually all ash and sulfur then are removed from the coal solution, Most of the carbon, together with about 20 or 40 percent volatile matter, is distilled to form "clean coal" with a considerably higher heating value than untreated coal. The ash content is reduced to about 0.1 percent, and sulfur may be reduced to as low as 0.3 per-

Mrs. Haas Heads Library Board

Mrs. Linda Haas was lected president of the Board of Trustees of the Bay-Waveland City County Public Library system at a monthly meeting held Monday in the Bay library.

Mrs. Haas succeeds Mrs. Byelyn Griffith who has served as president of the system for the past three Under board regulations no person may cerve more than three years consecutively as president. Mrs. Griffith, however, remains as a trustee and in turn was elected treasurer for the next year.

Library Film Project Successful

Mrs. W.L. Argus, reports that attendance at the showing of two-films for children 6 to 12 years of age was a very successful summer project. "Rabbit Hill", the first film, had an attendance of about 60 children, and the second film, 'Stuart Little" was equally well attended. The latter was shown at the Civil Defense Headquarters at Valena C. Jones School, with Mr. J.R. LaVole in charge of the

profector. The same films were shown later in the month at the Waveland Library, with Mrs. Mildred Means in charge, and she reports the attendance there was to capacity audiences. Mrs. Charles Dickinson, literary projects chairman for Friends of the Library, obtained the films from the Mississippi Library Association. Friends of the Library extends a cordial invitation to anyone interested in joining - call Mrs. W.F. Merlin (467-5036), mem-

Other officers elected were Benvenutti, 7 vicepresident, and Miss Marilyn Stegenga, a member of the library staff, was elected secretary.

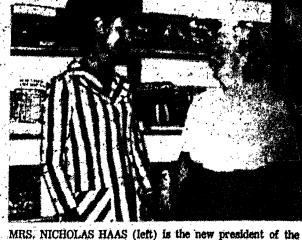

The meeting marked the last official attendance for Mrs. William "Prim" Hilliker who was stepping down as a Trustee after serving for some seven years. This, however, does not mean she is leaving library work. At the meeting was Mrs. William Argus. Jr. President of the Friends of the Library, who promptly announced that beginning immediately, "Prim" would be working with the "Friends".

Mrs. Louise Lynch, proprietor of the Waveland Drug store, was named as a' trustee to succeed. Mrs. Hilliker. Monday was Mrs. Lynch's first meeting with the President of the City-County full board. Paul White, vice Friends of the Library group, president of the Gulf National Bank, is the fifth member of the Board of Trustees,

Three youth advisors, Michael Carver, Yolande Bradley and Mary Franckiewicz, also attended the meeting and were invited to attend all future meetings of the board. Mrs. Griffith told the three that they had the right to enter into discussion that came up before the board and in turn had the right to make suggestions.

Mrs. Griffith pointed out that the library is for everybody, the very young, the young, the middle-aged and the senior citizens and that the trustees were always open to suggestions to improve operation and use of the facilities.

Mrs. Alice Prindiville, coordinator of the library system, reported to the board that usage of the system's facilities, the Bay library, the Waveland library and the Bookmobile, continued extremely good through the

Board of Trustees of the City-County Public Library. Outgoing president is Mrs. Lloyd Griffith (right).

Memorial To Honor Nation's Seabees

Cong. William M, Colmer (D-Miss.) received final Congressional approval last week for his resolution proposing construction of a memorial in honor of the nation's Seabees.

The House cleared the bill in early May, but the Senate tacked on an amendment before granting approval. The measure now goes to the President for his signature.

The bill calls for "erection of a memorial on public grounds in the District of Columbia in honor and

We've got some powerful industrial connections...

Everyone knows that the Electric Power Associations bring electricity to farms and homes in Mississippi which are not served by commercial utility companies. But you mightnot realize that they play a big part in developing Mississippi industry, by making dependable electric power available in areas

which can benefit most from new industry. Electric Power Associations serve more than 1200 industries across Mississippi — a big contribution to our economy. Wherever you live in Mississippi, the Electric Power Associations are part of your life ... serving today's needs and building for the future.

State Auditor Cautions Supervisors On Use Of County Equipment

On September 7, Hampton King, Mississippi state auditor, wrote a letter to each county's Board of Supervisors in which he pointed out several questions regarding the activities of supervisors throughout the state. The letter covers several areas which are familiar to most county residents, either directly or indirectly.

Although the letter was never read at a regular meeting of the Hancock County Board of Supervisors, the Echo asked for and received a copy of it from Chancery Clerk John Rutherford, Below is the letter in its entirety:

Board of Supervisors Hancock County . Bay St. Louis, Mississippi

Gentlemen:

This letter is written as a result of questions raised with the State Auditor and with staff members of the State Department of Audit by several members of county boards of supervisors in various sections of the state and by citizens who have observed activities of county supervisors and of road crews employed by supervisors. It is a general letter, with copies being sent to each county board of supervisors in the state, rather than a letter addressed to any specific

they so desire, although copies tax funds to be used to imare not being sent to the press prove private property, by the State Auditor at this Many of the questions asked have to do with the use of

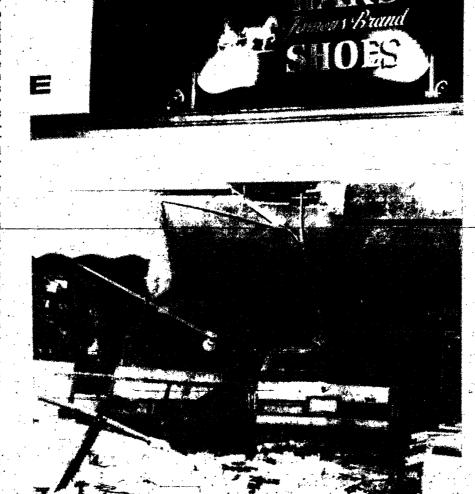

materials, labor and equipment paid for out of county funds, such as: Is it lawful to use such materials, labor and equipment on privately-owned property? This question the courts have answered quite clearly in several cases. An appropriation of public funds for the construction or maintenance of private roads or driveways is an appropriation not authorized by law and a member of a board of supervisors is personally liable on his bond for maintenance of private roads. Use of county-owned equipment. materials and labor on privately-owned property is not one of the powers granted to the boards of supervisors by the State Constitution or the legislature, and the courts have consistently held that the power and authority of the board of supervisors are limited strictly to those conferred by the State Con-

stitution and by statute. Many citizens have requested members of boards of supervisors to level house sites, commercial sites, to build private roads and driveways, to pave driveways, to dig or otherwise construct private pends or lakes, and to do other personal favors which involve the use of county funds, without stopping to think that they are for all practical purposes, asking the supervisor to steal from other taxpavers for their private benefit. Sometimes these requests have been made 11:44 p.m. because the citizens concerned saw work being done 12:34 a.m. on other private property by 1:24 a.m. county employees and equipment, and in such cases, the supervisor has brought the

county board. Any board trouble upon himself by whether it is home property, which sees fit to publish the previous actions. But there is commercial property, church letter is authorized to do so, if no legal authority for public property, private school

Controversy Continues Over EDA

by Marileen Maher Echo news editor

The Hancock County Port and Harbor Commission is in danger of losing \$260,000 in Economic Development Federal Aviation Ad-Administration funds because airport manager M.G. "Jack" Seuzeneau failed to file the proper applications, according to Dr. Mike Smith, P and H executive director.

Car Goes Through Shoe Store Window

Extensive damage was incurred to Hak's Shoe Store Sunday night when a Bay St. Louis man apparently looking for a place to park, drove a 1965 Cadillac through the front display window of the store, coming to a stop against display shelves at the back

An eyewitness to the incident, Mrs. John Marsh, Diamondhead resident, told the Sea Coast Echo that she was standing in front of an adjacent place of business about 7 p.m., when Nolan Kingston, Jr., 27, drove up on an open parking place at the curb and, without slowing, continued through the shoe store's front wall and window Boots, shoes and accessories were scattered in all directions amid the debris and broken glass.

Kingston; who lives at 3 Cedar Lane, Bay St. Louis, was placed under arrest by Assistant Police Chief Douglas Williams and taken to Hancock County jail. He was charged with driving while intoxicated and causing property damage and held under \$500 bond.

funds were to come from the

ministration' (\$1.3 million) Hancock and County (\$1,040,000),

Dr. Smith said he learned about a month ago that the application which was supposed to have been filed in January, 1972, had never been received by EDA.

Seuzeneau denies that he

ever had the authority to file

application for federal funds. In a letter to the editor of the Echo, (letter appears on page 4A) Seuzeneau states: "I, M.G. Dr. Smith said Wednesday that he had received notification that the FAA funds for the airport extension had been allocated for Hancock County.

Smith said that these applications were never completed by Seuzeneau and were never presented to the commission for a pre-filing conference. "Mr. Seuzeneau claims that this was my job but I did not take over officially as executive director until March 1, 1972," Smith
